PROFESSIONAL SUMMARY

Currently pursuing a Master of Computer Applications (MCA) in Generative AI at SRM Institute of Science and Technology, Ramapuram Campus, with a strong foundation in Artificial Intelligence, Machine Learning, Cloud Computing, and Information Security. Possess hands-on experience through academic projects and practical exposure to Python, Java, SQL, Git/GitHub, and cloud technologies. Passionate about developing AI-driven solutions and continuously enhancing technical skills. Seeking an internship or entry-level opportunity in Generative AI, Machine Learning, Data Science, Cloud Computing, or Software Development.

EDUCATION

Master of Computer Applications | Generative Ai.
SRM University, Ramapuram campus,Chennai. **July 2026 – May 2028**

Bachelor of Computer Application | Cloud Technology & Information Security
Crescent University, Vandalur, Tamil Nadu. **Aug 2023 – May 2026**
• CGPA: 7.35/10

Higher Secondary Education | Vyasa Vidyalaya, Puzhuthivakkam, Chennai
May 2023
• 12th: 67%

PROJECTS / INTERNSHIPS

Dual-Key Based Secure Cloud File Storage System (Team Project)
- ➢ Implemented Client-side AES-GCM Encryption
- ➢ Developed Dual-key Security using HKDF
- ➢ Maintained Forensic Audit Trail for User activities

Real Estate Listing Platform
- ➢ Developed a web-based real estate listings platform
- ➢ Implemented user authentication and role-based access
- ➢ Managed project using GitHub for team collaboration

GitHub: https://github.com/hirun-afreen/Real-Estate-listing-Platform.git

Cloud Computing Intern **Sep 2025 – Nov 2025**
- ➢ Learned fundamentals of cloud platforms and cloud services
- ➢ Gained exposure to server setup, storage management, and cloud security basics
- ➢ Assisted in understanding scalable and reliable cloud infrastructure

TECHNICAL SKILLS

- **Cloud Platforms:** Cloud computing basics, Devops, AWS/Azure (basic), virtualization
- **Web Development:** HTML, CSS, React.js, Node.js, MongoDB (basics),Wordpress
- **Security & Networking:** ISF, Network security, Encryption Basics (AES, RSA), Firewalls & Access Control
- **Operating Systems:** Linux basics, Windows Administration
- **Programming Languages:** Python,Java,SQL.
- **Tools & Technologies:** VS Code, Git/GitHub

CERTIFICATIONS

- AWS DevOps Engineer – Udemy (Course completion),
- SQL Basics – Udemy
- NPTEL Elite-Cloud Computing,IIT Kharagpur (jan-April 2026)
- German A1 level,
- RDBMS Fundamentals,
- Python Basics and Java Basics
